1. Personal Details

Name: Mikko Pekka Parviainen
Born: July 1, 1978 – Tampere, Finland
Nationality: Finnish
Street address: Insinöörinkatu 66 B 48
33720 Tampere, Finland
Phone: +358 40 522 5690
Email/Web: mikkopa@gmail.com
https://www.linkedin.com/in/mikko-parviainen-21008266
homepage: https://mikkopparviainen.github.io
some github repos: https://github.com/mikkopparviainen/
https://scholar.google.com/citations?user=0PUmhVYAAAAJ
Date of the CV: December 22, 2023

2. Degrees

2016 *Doctor of Science (Technology)*, Faculty of Computing and Electrical Engineering at Tampere University of Technology

2003 *Master of Science*, Department of Electric Engineering (with distinction) at Tampere University of Technology
Major: Signal Processing, Subsidiary: Digital Transmission

1997 *Finnish Matriculation Examination*, Kaarila Senior Secondary School

3. Language skills

– Finnish: native
– English: fluent
– Swedish: basics
– German: basics
– French: basics

4. Work experience

September 4,2023 – October 24, 2023 *AI Scientist*, Silo AI
- Machine learning research and implementation

January 1, 2019– June 30, 2022 *Postdoctoral Research Fellow*, Faculty of Information Technology and Communication Sciences, Tampere University
– Independent research work

January 1, 2013 – December 31, 2018 *Researcher*, Department of Signal Processing, Tampere University of Technology
– Independent research work

February 1, 2007 – December 31, 2012 *Teaching Associate*, Department of Signal Processing, Tampere University of Technology
– Post-graduate studies
– Independent research work
– Teaching at courses related to signal processing

August 1, 2006 – February 16, 2007 *Software Designer*, Elektrobit Ltd.,
– Research and development
– Algorithm analysis and development
– Preparing specifications from mobile technology standards such as Long Term Evolution (LTE) using Matlab © for C++ programmers

May 7, 2003 – April 30, 2006 *Researcher*, Department of Signal Processing, Tampere University of Technology
– Post-graduate studies
– Independent research work
– Teaching at courses related to signal processing

March 6, 2000 – May 6, 2003 *Research Assistant*, Department of Signal Processing, Tampere University of Technology
– Master's Thesis
– Support duties in audio signal processing research projects

1997 – 2000 *Technical Assistant in live broadcasting*, YLE (Finnish Broadcasting Company)

5. Research output

- 18 peer-review articles consisting of conference paper and journal articles (A list of publications available in Section 9. and at https://scholar.google.fi/citations?hl=en pli=1 user=0PUmhVYAAAAJ).
- Software implementations developed during the research (programming languages include Matlab, Python, and Bash)
- Custom design/build of equipment for data collection, actual data recording, and releasing of datasets

6. Research supervision and leadership experience

- Arjun Venkatakrishnan MSc thesis supervision, co-supervisor Dr. Tech Pasi Pertilä, http://urn.fi/URN:NBN:fi:tuni-201909203436
- Currently supervising a doctoral student.

7. Teaching merits

- YPP1a Yliopisto-opetuksen ja -oppimisen teoreettiset perusteet (pedagogical studies), 5 cp, Tampere University of Technology
- Corresponding teaching SGN-1650 Signaalinkäsittelyn työkurssi / SGN-1656 Signal Processing Laboratory. The target audience consisting of MSc and doctoral degree students (2007 – 2012).
- Design and implementation of pratical exercises in Tampere University of Technology (2007 – 2012):
  - SGN-2500 Johdatus hahmontunnistukseen (BSc and MSc students)
  - SGN-2506 Introduction to pattern recognition (BSc and MSc students)
  - SGN-2806 Neural Computation (MSc and doctoral students)
  - SGN-2556 Pattern recognition (MSc and doctoral students)

8. Other key academic merits

- Reviewer of conference and journal articles (publishers include, e.g., IEEE and MDPI)
- Invited speaker at indoor navigation seminar (INTO) 2016 seminar
- System administrator of Linux servers and workstations of a research group
- Quality management in research projects

9. List of Publications

[1] A. Venkatakrishnan, P. Pertilä, and M. Parviainen, "Tampere university rotated circular array impulse response dataset," in *29th European Signal Processing Conference, EUSIPCO 2021*, 2021.
